HTML –

```html
<html>
   <head>
      <title>Ayush_Rawat B 26</title>
      <style>
         * {
            text-align: center;
         }
         div {
            background-color: yellowgreen;
            border-top: 15px solid red;
            border-right: 5px dotted blue;
            border-bottom: 20px groove green;
            border-left: 25px double red;
            margin-top: 30px;
            margin-right: 90px;
            margin-bottom: 60px;
            margin-left: 50px;
            padding-top: 50px;
            padding-right: 90px;
            padding-bottom: 140px;
            padding-left: 30px;
         }
      </style>
   </head>
   <body>
      Outside of box. Below this should be a box with some space between this and box.
      <div>
         Imagine some text here.<br>
         There is some padding around this text.
      </div>
      Bottom text to show bottom margin.
   </body>
</html>
```

OUTPUT -

Outside of box. Below this should be a box with some space between this and box.
